| <b>Hazard(s) not otherwise classified (HNOC)</b> | None known.                                                                                                                                                                                             |
| <b>Supplemental information</b>                  | 100% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 100% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment. |

### 3. Composition/information on ingredients

#### Mixtures

| Chemical name                    | Common name and synonyms | CAS number | %       |
|----------------------------------|--------------------------|------------|---------|
| Polyurethane resin               |                          | 67700-43-0 | 15 - 45 |
| Aluminum Oxide, Non-fibrous      |                          | 1344-28-1  | 15 - 40 |
| Talc, Magnesium silicate hydrate |                          | 14807-96-6 | 5 - 20  |
| Nylon                            |                          | No Data    | 1 - 10  |
| Polyester                        |                          | 25038-59-9 | 1 - 10  |
| Chlorite-group minerals          |                          | 1318-59-8  | 1 - 5   |
| Lithium stearate (PB)            |                          | 68783-37-9 | 1 - 5   |
| Melamine Resin                   |                          | 82115-62-6 | 1 - 5   |
| Polymer/solids                   |                          | No Data    | 1 - 5   |

### 4. First-aid measures

|                                                                        |                                                                                                                  |
|------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------|
| Inhalation                                                             | Move to fresh air. Call a physician if symptoms develop or persist.                                              |
| Skin contact                                                           | Wash off with soap and water. Get medical attention if irritation develops and persists.                         |
| Eye contact                                                            | Rinse with water. Get medical attention if irritation develops and persists.                                     |
| Ingestion                                                              | Rinse mouth. Get medical attention if symptoms occur.                                                            |
| Most important symptoms/effects, acute and delayed                     | Direct contact with eyes may cause temporary irritation.                                                         |
| Indication of immediate medical attention and special treatment needed | Treat symptomatically.                                                                                           |
| General information                                                    | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. |

### 5. Fire-fighting measures

|                                                               |                                                                                               |
|---------------------------------------------------------------|-----------------------------------------------------------------------------------------------|
| Suitable extinguishing media                                  | Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).                                   |
| Unsuitable extinguishing media                                | Do not use water jet as an extinguisher, as this will spread the fire.                        |
| Specific hazards arising from the chemical                    | During fire, gases hazardous to health may be formed.                                         |
| Special protective equipment and precautions for firefighters | Self-contained breathing apparatus and full protective clothing must be worn in case of fire. |
| Fire fighting equipment/instructions                          | Move containers from fire area if you can do so without risk.                                 |
| Specific methods                                              | Use standard firefighting procedures and consider the hazards of other involved materials.    |
| General fire hazards                                          | No unusual fire or explosion hazards noted.                                                   |

### 6. Accidental release measures

|                                                                     |                                                                                                                                                       |
|---------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal precautions, protective equipment and emergency procedures | Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.                                                                   |
| Methods and materials for containment and cleaning up               | Stop the flow of material, if this is without risk. Following product recovery, flush area with water. For waste disposal, see section 13 of the SDS. |
| Environmental precautions                                           | Avoid discharge into drains, water courses or onto the ground.                                                                                        |

### 7. Handling and storage

|                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|-------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Precautions for safe handling | Avoid prolonged exposure. For industrial or professional use only. Always read, understand and follow the Safety Guide insert as well as the Safety Data Sheet before use. Use care when handling and storing abrasive wheels and products. Always inspect products for cracks, chips, nicks and for possible damage before mounting and ring test vitrified wheels. Damaged product can break apart during use and cause serious injury. Always use a guard, never exceed maximum operating speed, mount and operate according to ANSI B7.1 for Bonded Abrasive products and ANSI B7.7 for Coated Abrasive products. |
|-------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

Conditions for safe storage, including any incompatibilities

Store in tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

Protective measures

Wear appropriate personal protective equipment (see Section 8). Use only with adequate ventilation. Avoid breathing dust. Read the Safety Data Sheet of the material you are grinding, polishing, cutting, sanding, etc. for appropriate respiratory protection.

Wash hands after handling

Storage conditions

Bonded Abrasive products should be stored according to ANSI B7.1 and not be exposed to extreme temperatures or conditions that cause condensation. Coated Abrasive products should be stored according to ANSI B7.7 and between 35-50% relative humidity and between 60-80 degrees Fahrenheit.

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Permissible Exposure Limits (PEL) for Air Contaminants (29 CFR 1910.1000)

| Components                                  | Type | Value    | Form                 |
|---------------------------------------------|------|----------|----------------------|
| Aluminum Oxide, Non-fibrous (CAS 1344-28-1) | PEL  | 5 mg/m3  | Respirable fraction. |
|                                             |      | 15 mg/m3 | Total dust.          |

US. OSHA Table Z-3 Permissible Exposure Limits (PEL) for Mineral Dusts (29 CFR 1910.1000)

| Components                                        | Type | Value     | Form                 |
|---------------------------------------------------|------|-----------|----------------------|
| Aluminum Oxide, Non-fibrous (CAS 1344-28-1)       | TWA  | 5 mg/m3   | Respirable fraction. |
|                                                   |      | 15 mg/m3  | Total dust.          |
|                                                   |      | 50 mppcf  | Total dust.          |
|                                                   |      | 15 mppcf  | Respirable fraction. |
| Talc, Magnesium silicate hydrate (CAS 14807-96-6) | TWA  | 0.1 mg/m3 | Respirable.          |
|                                                   |      | 20 mppcf  |                      |
|                                                   |      | 2.4 mppcf | Respirable.          |

US. ACGIH Threshold Limit Values (TLV)

| Components                                        | Type | Value   | Form                 |
|---------------------------------------------------|------|---------|----------------------|
| Aluminum Oxide, Non-fibrous (CAS 1344-28-1)       | TWA  | 1 mg/m3 | Respirable fraction. |
| Talc, Magnesium silicate hydrate (CAS 14807-96-6) | TWA  | 2 mg/m3 | Respirable fraction. |

NIOSH. Immediately Dangerous to Life or Health (IDLH) Values, as amended

| Components                                        | Type | Value      |
|---------------------------------------------------|------|------------|
| Talc, Magnesium silicate hydrate (CAS 14807-96-6) | IDLH | 1000 mg/m3 |

US. NIOSH: Pocket Guide to Chemical Hazards Recommended Exposure Limits (REL)

| Components                                        | Type | Value   | Form        |
|---------------------------------------------------|------|---------|-------------|
| Talc, Magnesium silicate hydrate (CAS 14807-96-6) | TWA  | 2 mg/m3 | Respirable. |

Biological limit values

No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls

Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment

Eye/face protection

Wear safety glasses with side shields (or goggles).

|                                       |                                                                                                                                                                                                                       |
|---------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Skin protection</b>                |                                                                                                                                                                                                                       |
| <b>Hand protection</b>                | Wear appropriate chemical resistant gloves.                                                                                                                                                                           |
| <b>Other</b>                          | Wear appropriate chemical resistant clothing.                                                                                                                                                                         |
| <b>Respiratory protection</b>         | In case of insufficient ventilation, wear suitable respiratory equipment.                                                                                                                                             |
| <b>Thermal hazards</b>                | Wear appropriate thermal protective clothing, when necessary.                                                                                                                                                         |
| <b>General hygiene considerations</b> | Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. |

## 9. Physical and chemical properties

### Appearance

|                                                     |                               |

| <b>Other information</b>                            |                               |
| <b>Density</b>                                      | 3.13 g/cm3 estimated          |
| <b>Explosive properties</b>                         | Not explosive.                |
| <b>Oxidizing properties</b>                         | Not oxidizing.                |
| <b>Specific gravity</b>                             | 3.13 estimated                |

## 10. Stability and reactivity

|                                           |                                                                                               |
|-------------------------------------------|-----------------------------------------------------------------------------------------------|
| <b>Reactivity</b>                         | The product is stable and non-reactive under normal conditions of use, storage and transport. |
| <b>Chemical stability</b>                 | Material is stable under normal conditions.                                                   |
| <b>Possibility of hazardous reactions</b> | No dangerous reaction known under conditions of normal use.                                   |
| <b>Conditions to avoid</b>                | Contact with incompatible materials.                                                          |
| <b>Incompatible materials</b>             | Acids. Chlorine.                                                                              |
| <b>Hazardous decomposition products</b>   | No hazardous decomposition products are known.                                                |

## 11. Toxicological information

### Information on likely routes of exposure

|              |                                                          |
|--------------|----------------------------------------------------------|
| Inhalation   | Prolonged inhalation may be harmful.                     |
| Skin contact | No adverse effects due to skin contact are expected.     |
| Eye contact  | Direct contact with eyes may cause temporary irritation. |
| Ingestion    | Expected to be a low ingestion hazard.                   |

|                                                                              |                                                          |
|------------------------------------------------------------------------------|----------------------------------------------------------|
| Symptoms related to the physical, chemical and toxicological characteristics | Direct contact with eyes may cause temporary irritation. |
|------------------------------------------------------------------------------|----------------------------------------------------------|

### Information on toxicological effects

|                |            |
|----------------|------------|
| Acute toxicity | Not known. |
|----------------|------------|

| Components                                  | Species | Test Results |
|---------------------------------------------|---------|--------------|
| Aluminum Oxide, Non-fibrous (CAS 1344-28-1) |         |              |

#### Acute

##### Oral

|      |     |              |
|------|-----|--------------|
| LD50 | Rat | > 5000 mg/kg |
|------|-----|--------------|

|                           |                                                                             |
|---------------------------|-----------------------------------------------------------------------------|
| Skin corrosion/irritation | Due to partial or complete lack of data the classification is not possible. |
|---------------------------|-----------------------------------------------------------------------------|

|                                   |                                                                             |
|-----------------------------------|-----------------------------------------------------------------------------|
| Serious eye damage/eye irritation | Due to partial or complete lack of data the classification is not possible. |
|-----------------------------------|-----------------------------------------------------------------------------|

### Respiratory or skin sensitization

|                           |                                                                             |
|---------------------------|-----------------------------------------------------------------------------|
| Respiratory sensitization | Due to partial or complete lack of data the classification is not possible. |
|---------------------------|-----------------------------------------------------------------------------|

|                    |                                                                             |
|--------------------|-----------------------------------------------------------------------------|
| Skin sensitization | Due to partial or complete lack of data the classification is not possible. |
|--------------------|-----------------------------------------------------------------------------|

|                        |                                                                             |
|------------------------|-----------------------------------------------------------------------------|
| Germ cell mutagenicity | Due to partial or complete lack of data the classification is not possible. |
|------------------------|-----------------------------------------------------------------------------|

|                 |                                                                             |
|-----------------|-----------------------------------------------------------------------------|
| Carcinogenicity | Due to partial or complete lack of data the classification is not possible. |
|-----------------|-----------------------------------------------------------------------------|

| Reproductive toxicity | Due to partial or complete lack of data the classification is not possible. |
|-----------------------|-----------------------------------------------------------------------------|

|                                                  |                                                                             |
|--------------------------------------------------|-----------------------------------------------------------------------------|
| Specific target organ toxicity - single exposure | Due to partial or complete lack of data the classification is not possible. |
|--------------------------------------------------|-----------------------------------------------------------------------------|

|                                                    |                                                                             |
|----------------------------------------------------|-----------------------------------------------------------------------------|
| Specific target organ toxicity - repeated exposure | Due to partial or complete lack of data the classification is not possible. |
|----------------------------------------------------|-----------------------------------------------------------------------------|

|                   |                                                                             |
|-------------------|-----------------------------------------------------------------------------|
| Aspiration hazard | Due to partial or complete lack of data the classification is not possible. |
|-------------------|-----------------------------------------------------------------------------|

|                 |                                      |
|-----------------|--------------------------------------|
| Chronic effects | Prolonged inhalation may be harmful. |
|-----------------|--------------------------------------|

## 12. Ecological information

|             |                                                                                                                                                                                                    |
|-------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Ecotoxicity | The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. |
|-------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                               |                                                                              |
|-------------------------------|------------------------------------------------------------------------------|
| Persistence and degradability | No data is available on the degradability of any ingredients in the mixture. |
|-------------------------------|------------------------------------------------------------------------------|

|                           |                    |
|---------------------------|--------------------|
| Bioaccumulative potential | No data available. |
|---------------------------|--------------------|

|                  |                    |
|------------------|--------------------|
| Mobility in soil | No data available. |
|------------------|--------------------|

|                       |                                                                                                                                                                                         |
|-----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Other adverse effects | No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component. |
|-----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## 13. Disposal considerations

|                       |                                                                                      |
|-----------------------|--------------------------------------------------------------------------------------|
| Disposal instructions | Collect and reclaim or dispose in sealed containers at licensed waste disposal site. |
|-----------------------|--------------------------------------------------------------------------------------|

|                            |                                                        |
|----------------------------|--------------------------------------------------------|
| Local disposal regulations | Dispose in accordance with all applicable regulations. |
|----------------------------|--------------------------------------------------------|

|                      |                                                                                                                |
|----------------------|----------------------------------------------------------------------------------------------------------------|
| Hazardous waste code | The waste code should be assigned in discussion between the user, the producer and the waste disposal company. |
|----------------------|----------------------------------------------------------------------------------------------------------------|

|                                       |                                                                                                                                                                                                                  |
|---------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Waste from residues / unused products | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions). |
|---------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

**Contaminated packaging**

Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

**14. Transport information****DOT**

Not regulated as dangerous goods.

**IATA**

Not regulated as dangerous goods.

**IMDG**

Not regulated as dangerous goods.

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code** Not applicable.

**15. Regulatory information****US federal regulations**

This product is not known to be a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

**Toxic Substances Control Act (TSCA)**

One or more components of the mixture are not on the TSCA 8(b) inventory or are designated "inactive".

**TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)**

Not regulated.

**CERCLA Hazardous Substance List (40 CFR 302.4)**

Not listed.

**SARA 304 Emergency release notification**

Not regulated.

**OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053)**

Not listed.

**Superfund Amendments and Reauthorization Act of 1986 (SARA)****SARA 302 Extremely hazardous substance**

Not listed.

**SARA 311/312 Hazardous chemical** No

**SARA 313 (TRI reporting)**

| Chemical name               | CAS number | % by wt. |
|-----------------------------|------------|----------|
| Aluminum Oxide, Non-fibrous | 1344-28-1  | 15 - 40  |

**Other federal regulations****Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List**

Not regulated.

**Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)**

Not regulated.

**Safe Drinking Water Act (SDWA)** Not regulated.

**US state regulations**

**US. California. Candidate Chemicals List. Safer Consumer Products Regulations (Cal. Code Regs, tit. 22, 69502.3, subd. (a))**

Talc, Magnesium silicate hydrate (CAS 14807-96-6)

**California Proposition 65**

**WARNING:** This product can expose you to Talc, Magnesium silicate hydrate, which is known to the State of California to cause cancer. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov). According to the Superior Court of California Consent Judgement 995893 issued on September 29, 2000 abrasive products from Saint-Gobain Abrasives are exempt from the Proposition 65 warning requirements.

**California Proposition 65 - CRT: Listed date/Carcinogenic substance**

Talc, Magnesium silicate hydrate (CAS 14807-96-6) Listed: April 1, 1990

## International Inventories

| Country(s) or region        | Inventory name                                                         | On inventory (yes/no)* |
|-----------------------------|------------------------------------------------------------------------|------------------------|
| Australia                   | Australian Inventory of Industrial Chemicals (AICIS)                   | No                     |
| Canada                      | Domestic Substances List (DSL)                                         | No                     |
| Canada                      | Non-Domestic Substances List (NDSL)                                    | No                     |
| China                       | Inventory of Existing Chemical Substances in China (IECSC)             | No                     |
| Europe                      | European Inventory of Existing Commercial Chemical Substances (EINECS) | No                     |
| Europe                      | European List of Notified Chemical Substances (ELINCS)                 | No                     |
| Japan                       | Inventory of Existing and New Chemical Substances (ENCS)               | No                     |
| Korea                       | Existing Chemicals List (ECL)                                          | No                     |
| New Zealand                 | New Zealand Inventory                                                  | No                     |
| Philippines                 | Philippine Inventory of Chemicals and Chemical Substances (PICCS)      | No                     |
| Taiwan                      | Taiwan Chemical Substance Inventory (TCSI)                             | No                     |
| United States & Puerto Rico | Toxic Substances Control Act (TSCA) Inventory                          | No                     |

\*A "Yes" indicates that all components of this product comply with the inventory requirements administered by the governing country(s)

A "No" indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).

## 16. Other information, including date of preparation or last revision

**Issue date** 05-20-2024

**Version #** 01

**Disclaimer** Saint Gobain Abrasives, Inc. cannot anticipate all conditions under which this information and its product, or the products of other manufacturers in combination with its product, may be used. It is the user's responsibility to ensure safe conditions for handling, storage and disposal of the product, and to assume liability for loss, injury, damage or expense due to improper use. The information in the sheet was written based on the best knowledge and experience currently available. Information for this material safety data sheet was obtained from sources considered technically accurate and reliable. While every effort has been made to ensure full disclosure of product hazards, in some cases data is not available and is so stated. Since conditions of actual product use are beyond control of the supplier, it is assumed that users of this material have been fully trained according to the mandatory requirements of WHMIS. No warranty, expressed or implied, is made and supplier will not be liable for any losses, injuries or consequential damages which may result from the use of or reliance on any information contained in this form. If user requires independent information on ingredients in this or any other material, we recommend contact with the Canadian Centre for Occupational Health and Safety (CCOHS) in Hamilton, Ontario (1-800-263-8466) or CSST in Montreal, Quebec (514-873-3990).
